

## **D-U-N-S® Number Application now officially upgrades to D&B Registered™ service**

Starting from March 2009 the Huaxia D&B China's D-U-N-S Number application service in China has been upgraded to D&B Registered™ service.

D&B Registered™ service provides a web-enabled icon being hosted in customer's website that links to the company profile in D&B Database. A simple click at the icon (or the hyperlink) can bring the visitor to the company profile which has been through the authentication & verification process by Huaxia D&B China.

There are two types of service,

- > D&B Registered™ Basic (RMB800/year)
- > D&B Registered™ Comprehensive (RMB1800/year).

1. Basic service includes the D-U-N-S Numbering service, a D&B Registered™ icon being hosted in customer's website and the basic company profile being displayed in internet.
2. Comprehensive service includes the D-U-N-S Numbering service, a D&B Registered™ icon being hosted in customer's website, a comprehensive profile being displayed in internet, and the self-inquired Business Information Report generated by Huaxia D&B China.
3. There are some miscellaneous service can be added on the Comprehensive service. It's on the optional base with additional charge incurred.

With the rollout of D&B Registered™ Service, the D-U-N-S Number application is bundled with D&B Registered™ Service. No stand-alone D-U-N-S Number application service will be offered anymore.

However, companies requiring a D-U-N-S Number as vendors of Delphi, Siemens, Verisign, US government, and UPIK will still be able to obtain the D-U-N-S Number free of charge, by calling Huaxia D&B China on +86 21 23213838 or by emailing DUNSAPPLICATION@huaxiadnb.com and stating that they require a D-U-N-S Number as part one of these programs. Huaxia D&B China will also offer these companies the D&B Registered service at a fee, because of the extra confidence this authentication and verification service provides.

A sample of D&B Registered™ mark and the profile (basic and comprehensive) are attached for your reference.
